**Project Description/Justification:**

This CIP supports the Department's mission to develop, conserve and enhance natural resources for present and future Alaskans by delivering federally and local funded forest management, development and wildfire preparedness programs. AS 41.17.030 gives management of state forests to the Department of Natural Resources. This CIP will enable the Division to meet specific program requirements with federal and local support, including support to, but not limited to, the responsibilities of providing wildland fire protection services on state, private and municipal lands as mandated in AS41.15.010 – 170. These federal funds will allow the Division to improve and enhance its' abilities to support both resources and wildland fire programs that benefit the citizens and resources of Alaska. The threat of catastrophic wildland

fires in the urban interface areas in the state is increasing as Alaskans continue to move into the forested areas of the state. Additional federal grant funds may be anticipated to support forest resource management projects that may include:

- Forest resources and management
- Insect and Disease projects
- Urban and Community Forestry
- Forest Stewardship
- Forest Practices
- Forest Land Enhancement
- Forest Resource Inventory
- Cooperative forest resource research projects
- Improvement of the Division's wildland fire initial attack and extended attack capabilities.
- Improvement of local government and volunteer fire department capabilities to respond to structure and wildland fire incidents in the urban interface and rural areas of the state.
- Provide funding for EFF type I hotshot crew to be utilized in Alaska and the lower 48 to aid in the suppression of wildland fires.
- Community planning with GIS for wildland fire.
- Fuels mapping for wildland fire.
- Hazardous fuels mitigation projects.
- Prevention and education emphasizing Firewise concepts.
- Forest stewardship planning with private landowners and native corporations
- Provide funding for the development of Community Wildfire Protection Plans
- Firewise Education

The Project does not directly raise state revenue. However; it expands the state's effectiveness in both forest management and wildland fire management.

### Why is this Project Needed Now:

This CIP will provide federal and local funding to supplement or support projects consistent with the division and department mission. Division with needed capacity to support increasing program demands in both forest resources and wildland fire management brought about by increasing public need for services in forest resources (ie. Forest health, etc.), increased risks to public health and safety (ie. Wildland/urban interface education, prevention, & suppression).
